The protection profile identified in this certificate has been evaluated by an accredited evaluation facility using the methodology defined in the Common Methodology for IT Security Evaluation version 3.1 revision 3, for conformance to the Common Criteria for IT Security Evaluation, version 3.1 revision 3.
The validation has been conducted in accordance with the requirements in SWEDAC's Regulations and General Guidelines (STAFS 2007:21) for bodies certifying IT-security and is based on the conclusions presented in the evaluation technical report. This certificate is not an endorsement of the protection profile by the certification body or by any other organisation that recognises or gives effect to this certificate. The certificate is only applicable to the specific protection profile and version in the configuration that has been evaluated according to the certification report.
